

Diamond Instructions

Sew in continuous lines not individual diamonds. See Figure 1 for what NOT to do. You want to have minimal starts and stops.

1. This method of diamonds has 2 passes. It applies whether you are doing one or more templates.
2. Beginning with Fig. 2a, you will start in the top right corner going **up** in your first groove of the template. This is your first pass.
3. In Fig 2b, your second pass will start in the same groove, but this time going **down**.
4. Visit www.quilt-ez.com to see directions of similar designs such as Crosshatches!
